An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 4/20/06, Jim Hellwege requested an extension of time for 1 additional MONTH and authorized the Director to charge Deposit Account No. 02-2448 the required fee of \$330 (balance between 1 and 2 month extension) for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 13-16.

The following is an examiner's statement of reasons for allowance:

The prior art of records fails to teach or suggest a polishing composition based on silica particles, wherein the silica particles (large, small and intermediate sized particles) are present in the claimed volume percents (volume relationship). Notwithstanding applicants remarks and the declaration filed therewith, although Ota teaches weight percents of the silica sizes, the weight percents of said sizes cannot be directly translatable to volume (the correlation between a weight basis and a volume basis cannot be readily translated due to various factors, such as size, as well as density), thus the volume relationship of the instant claims is not appreciated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
